

**PERSONAL STATEMENT**

I was born and raised on a small farm in Indiana, where my father taught me the values of hard work and determination. Since the age of 12, I have consistently pursued my interests in graphic design and marketing; designing shirts and flyers for local bands and businesses. After managing High Impact Design for two years, I moved to Denver, Colorado in pursuit of a degree in marketing from the University of Colorado Denver Business School. While attending school, I worked part-time as a server, learning about consumer buying behavior and leveraging sales techniques. My experiences with Ghost Clothing Co. and Sixfour Creative LLC have been an incredible opportunity thus far, allowing me to integrate my prior design knowledge with my marketing education acquired from CU. I hope you consider the potential value of my employment with your company, as I continually progress and excel in this field.
